IF A STUDENT OR STAFF MEMBER TESTS POSITIVE FOR COVID-19

Following CDC guidance, positive and presumed positive individuals should stay home, separate themselves from others, monitor their symptoms, get tested, and wear a mask.

Parents should contact their child’s school nurse to let them know. Staff should notify their supervisor.

Staff and students who have tested positive or who are presumed positive may not return to school/work until:

5 days have passed since symptoms started (if symptomatic)
5 days have passed since date of positive test results (if asymptomatic), AND
they are fever-free without any fever-reducing medications for 24 hours (if symptomatic), AND
their symptoms are improving (if symptomatic).

Parents should contact their child’s school nurse to let them know. Staff should notify their supervisor.

Unvaccinated staff or students living with a positive family member AND are not experiencing symptoms may not return to work/school until:

they have quarantined for 10 days (5 days of the household member’s isolation + their own 5 day symptom free quarantine, no testing required), AND
they mask in school through day 15.

Parents should contact their child’s school nurse to let them know. Staff should notify their supervisor.

IF A STUDENT OR STAFF MEMBER IS LIVING WITH A COVID-19 POSITIVE PERSON

A close contact is someone who was within 6 feet of a COVID-positive individual for 15 or more consecutive minutes. Two people who are more than 6 ft apart are not close contacts.

A close contact to a COVID-19 positive student OR staff member is identified as a COVID-19 positive person.

Following CDC guidance, positive and presumed positive individuals may report to school/work.

If NOT exhibiting symptoms consistent with COVID-19, individuals may report to school/work.

During quarantine/isolation, students will continue asynchronous work via Canvas or Google Classroom.

Our goal is to maintain face-to-face instruction and services to the maximum extent possible. We will provide a substitute for the staff member if needed.

It is especially important for children to be in school. This plan provides a predictable, clear instruction for the start of the school year.

Parents should contact their child’s school nurse to let them know. Staff should notify their supervisor.

Students will need to wear their mask for the first 10 days of their quarantine/isolation.

Students with mask exceptions will need to wear their mask at all times while on school property.

Student mask exceptions are only applicable for students who are fully vaccinated and have tested negative for COVID-19 in the past 7 days.

Students should wear their mask at all times while on school property.

If a student/staff member is fully vaccinated, they may report to school/work.

If a student/staff member is fully vaccinated, they may report to school/work.

IF A STUDENT OR STAFF MEMBER EXHIBITS SYMPTOMS?

IS THE STUDENT/STAFF MEMBER EXHIBITING SYMPTOMS?

YES

During quarantine/isolation, students will continue asynchronous work via Canvas or Google Classroom.

If exhibiting symptoms consistent with COVID-19, following CDC guidance, individuals should stay home, separate themselves from others, monitor their symptoms, get tested, and wear a mask.

Parents should contact their child’s school nurse to let them know. Staff should notify their supervisor.
